

Doctor – Interview Prep Guide

Q: Why did you choose medicine as a career?

A: Because of a passion for helping people, interest in science, and desire to make an impact in healthcare.

Q: How do you handle a difficult patient?

A: By staying calm, listening actively, showing empathy, and explaining medical decisions clearly.

Q: What are the most important qualities for a doctor?

A: Compassion, attention to detail, communication, ethical decision-making, and resilience.

Q: How do you stay updated in medicine?

A: Through CME courses, journals, conferences, and medical associations.

Q: What is evidence-based medicine?

A: Medical decisions made using the best available research evidence, clinical expertise, and patient values.

Q: Describe a challenging case you managed.

A: I treated a patient with multiple comorbidities, coordinated with specialists, and tailored a safe treatment plan.

Q: How do you handle stress in this profession?

A: By maintaining work-life balance, practicing mindfulness, and relying on teamwork.

Q: What ethical principles guide medical practice?

A: Beneficence, non-maleficence, autonomy, and justice.
