

UI/UX Designer Interview Preparation Guide (Q&A;)

1. BASIC CONCEPTS

Q: What is the difference between UI and UX?

A: UX = user's overall experience, UI = visual/interactive interface.

Q: Explain the design process you follow.

A: Research → Define → Ideate → Design → Test → Deliver & Iterate.

Q: What are wireframes, mockups, and prototypes?

A: Wireframe = structure, Mockup = static visual, Prototype = interactive flow.

2. USABILITY & PRINCIPLES

Q: What are Nielsen's 10 Usability Heuristics?

A: Visibility, Match with real world, Control, Consistency, Error prevention, Recognition, Efficiency, Minimalist design, Error recovery, Help.

Q: What is Hick's Law?

A: More choices = slower decision-making.

Q: What is Fitts's Law?

A: Bigger/closer targets = easier to click.

3. RESEARCH & TESTING

Q: What UX research methods do you know?

A: Interviews, Surveys, Usability Testing, A/B Testing, Analytics.

Q: How do you know if your design is successful?

A: Metrics = task success, time, error rate, drop-off, conversions, satisfaction.

4. ACCESSIBILITY

Q: What is WCAG?

A: Web Content Accessibility Guidelines – ensure inclusive design.

Q: How do you ensure accessibility?

A: Contrast, alt text, ARIA, keyboard nav, avoid color-only cues.

5. TOOLS

Q: Which design tools are you proficient in?

A: Figma, XD, Sketch, Miro/FigJam, Photoshop, Illustrator.

Q: How do you hand off designs to developers?

A: Figma Inspect/Zeplin, style guide, states, responsive docs.

6. BEHAVIORAL QUESTIONS

Q: Tell me about a time you disagreed with a stakeholder.

A: Used data/testing to explain impact; compromised with balanced design.

Q: How do you balance user needs with business goals?

A: Find overlap, e.g. faster checkout = user ease + higher conversions.

Q: Favorite app UX?

A: Example: Spotify – clean UI, personalization, simple flows.

7. PRACTICAL EXERCISES

Q: Redesign a signup form.

A: Minimal fields, inline errors, show-password toggle, mobile-friendly.

Q: Ride-booking app wireframe?

A: Home → Ride Options → Confirmation → Live Tracking → Payment.

8. LATEST TRENDS (2025)

- Dark mode optimization
- Design tokens
- AI-assisted design & research
- Inclusive design
- Microinteractions
